On motion of Mr. Ransom, the

rules were suspended and the House bill to incorporate Fairfield Academy, in Hyde county, was taken up and passed its several readings. On motion of Mr. Powell, the bill to amend chapter 189, laws of 1870

-71, which provides for the building of a Railroad from the town of Pittsboro to Lockville, was taken up. Mr. Troy offered an amendment

which was adopted, which bill provides that the road shall run from Pittsboro to some point on the Western Road. The bill as amended passed its final

readings. On motion of McCabe, his bill to create an additional term of the Superior Court for the county of Edgecombe, was called up under a suspen-

sion of the rules and passed its readings. On motion of Mr. Humphreys, his bill to allow a per diem not to exceed \$2.50 per day to members of County Finance Committees, and restricting the term of such service to ten days

in a year, was taken up and passed. Reports of Standing Committees. Messrs. Allen, Merrimon, Flemming, Seymour and Price from the Judiciary; Troy, from Claims; Cowles,

from Internal Improvements; Mc Cabe, from Enrolled Bill; and Price, from Corporations, submitted reports from their respective Committees. Special Order. At 12 o'clock the bill entitled an act concerning the election of certain officers was taken up as the special order for that hour. The bill pro-

vides for the election of a Judge of the Supreme Court, two Judges of the Superior Court, a Superintendent of Public Instruction and such other vacancies that have occurred and where appointment have been made by the Governor, at the regular election next summer. Mr. Waring in a lengthy and very

elaborate argument, favored the passage of the bill, discussing the constitutionality of the question, &c. Mr. Seymour replied to the remarks

THE RALEIGH COTTON WEIGHING IMBROGLIO.—Imbroglios seem to be the fashion of the times. They are not confined to politics and religion,

but seem to be springing up on all sides where there is the slighest prospect for a clash of interest. Now we have one in bloom in regard to cotton weighing in this city. We do not in this mention of the matter propose to say a word pro or con, but merely, as best we can, give a clear, but brief statement of how the question stands at present. For the past two years the cotton weighing has been done by a weigher appointed by the City Board of Trade, which authority was given to the Board by the act of incorporation, with power to the weigher to appoint his deputies, giving a fee of 15 cents a bale. During the operation of the above law an organization, known as Grangers, came into existence, and they claimed that as they brought a large amount of cotton into this market they

NO. 120.

should have a voice in the making of the law in regard to its weighing, &c. Committees were appointed by both organizations and, as we understand it, a compromise was agreed upon, which the present General Assembly has enacted into a law.

The law as it now stands is, in substance as follows: stance, as follows: Not less than two or more than

six weighers of cotton shall be appointed, who shall hold the appointment until April 1st, 1875, and annually thereafter from the 1st of April to 1st of April of each year. The Board of Trade and the Raleigh Grange shall jointly make the appoinment of the weighers twenty days preceding the 1st of April o each year, and at any time make ap-pointments to fill unexpired terms. The Judge of Probate is to take a justified bond of \$5,000 and each party appointed a weigher. In case that any party is dissatisfied with the deductions on account of wet cotton, dirt and excess of tare, another weigher is to be called in and then, if an agreement cannot be reached, a third disinterested party shall be called, whose decision shall be final. Every weigher is to keep an office on Market Square, Salisbury, Fay-etteville or Hargett streets, between Davie and Hargett streets, or on either side of the cross streets running from Wilmington to Salisbury str. es, not north of Hargett or south of Davie street, or at such other place or places, as the City Commissioners may designate.

On Thursday last, T. D. Martin, Esq., the weigher appointed by the Board of Trade, learning that the new bill had passed into a law, and being in doubt as to whether or not he could operate longer under the old law, suspended operations and the

This new state of affairs is not unanimously agreed to by the Board of Trade and dissatisfaction is expressed, some of the members objecting to a secret organization having a voice in the regulation of the trade of the city. On Thursday the Board held a meeting, but adjourned over until yesterday without taking any definite action.

On yesterday afternoon the Board convened at 5 o'clock. An opinion from Judge Battle, to whom the matter had been referred. was read, to the effect that the Board could not contract with Mr. Martin for a longer time than the existence of the law under which he was appointed. The Board concurred in the opinion of Judge Battle. An election for a couple of weighers was held. Messrs. T. D. Martin and G. C. Upchurch were elected. Mr.

Martin declined to accept, and Mr. J. D. Primrose was elected in his stead. We hear that the Board of City Commissioners will take a hand in this matter, and assert their right before the courts to regulate the whole business themselves. We do not now propose to say who is right or who is wrong, but are content with making this, as we believe, fair and unbiased DEATH OF GENERAL PATTERSON.

-Gen. Samuel F, Patterson, of Caldwell county, died on the 20th at his home in that county. One by one those men who, in the better days of our State, directed affairs pass away, and the State is deprived of their matured wisdom. Ruffin, Worth, Bragg and Edwards have gone before and now Patterson follows. Gen. Patterson was by birth a Vir-

ginian, but at an early age removed to North Carolina, and began merchandizing in Wilkesboro. He first entered public life as a clerk in the General Assembly. He was then elected State Treasurer and afterwards President of the Raleigh and Gaston Railroad. He more than once represented his District and county in the General Assembly, and was faithful and true in all. General Patterson was greatly beloved by a large circle of friends and neighbors and to them his loss will be irrepara-ARMS FOR MILITARY SCHOOL .-

The bill authorizing the Adjutant General, under the direction of the Governor, to provide and issue breech-loading fire arms to Superintendents of Military Schools in the State, for the use thereof, passed its third reading in the House on vesterday. The bill provides for the exchange of the present muzzle loaders, now on hand, for that purpose; and the guns will be issued to said schools upon application and the filing of bonds for their safe keeping and prompt return to the State when called for by the State, as is now required in the issue of arms to volunteer military companies.

The number of Senatorial candidates in Kansas now reaches fifty, and there are about thirty counties to hear from.

The New Jersey Senate has passed a resolution giving each member of the Legislature 25 cents worth of postage per session.

The New York Tribune comments strongly upon Grant's recent assertion that "the Republican party must unload." It says that the party may possibly unload by dropping Grant. A hundred guns were fired at Gal-

The New York Herald has sent its special correspondent to work up the particulars of the death and the history of the late Siamese Twins, who died at Mount Airy, in this State, on Saturday morning last.

Says the Milwaukee Sentinel: South Carolina, which has been ground into the deeps of carpet-bag robbery, is beginning to see a promise of relief. A new party is in a fair way of organization. It is like the Western movements, intended to combine all the independent elements

and wipe out the robbers. All is now quiet at Austin, Texas. The lawful government is getting into working order, and the Legislature will speedily elect an United States Senator. The State Journal has suspended; Ex-Governor Davis appears no more on the scene, and in all probability Texas now takes its place with Virginia and Georgia, as redeemed from rulers alien from and

repugnant to her people. The State Legislatures now or soon to be in session are twenty-two, viz: California, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, sylvania, Rhode Island, Texas, Virginia and Wisconsin. Three Territorial Legislatures are also in session, viz: Colorada, Montana and Utah.-Baltimore Gazette. We were under the impression that

the North Carolina Legislature was in session also.

It is refreshing to know that the President's last appointee for Chief Justice has such character for integrity and legal learning as to command the emphatic endorsement of Senator THURMAN and the unaniimous vote of the Senate. Mr. THURMAN is reported as having strenuously advocated his confirmation in executive session, and as they are citizens of the same State, he must have known him a fit man for the high office.

THE United States House of Representatives, or rather the Republican majority therein, have recently committed a gross outrage upon the Democratic minority. The rule reads thus: "All motions to suspend the rules, except where the rules may be suspended by a majority vote, shall, before being submitted to the House, be seconded by a majority, as in the case of the previous question." The intention of the rule is to deprive the minority of the only power they have in the House. Under the rules, as they now stand, on Monday and during the last ten days of a session the minority could secure the yeas and nays if the demand therefor were seconded by one fifth of the mem-

The new rule abolishes this power and is, therefore, a powerful instrument for oppression. The majority have always the power to put the minority upon record, but the minority are powerless, on any occasion, to so treat the majority. The adoption of the rule was stubbornly resisted by the Democratic members of the House, aided by Mr. DAWES and some twenty-five other Republicans. BUTLER, of course, and MAY-NARD were its advocates and it was

OUR esteemed cotemporary, the Charlotte Observer, in its issue of Thursday, devotes a column to the discussion of the State debt. The position of the Observer upon the Special Tax Bond question is that held by the press and people of the State, to-wit: That there is no moral obligation which demands their recognition and payment at our hands. The old debt, acknowledged to be valid by all, ought to be compromised, as to amount, at the figures named in the bill reported by the Joint Select Committee on the subject. The Observer says that most of the individual debts made before the war and unpaid at its close have been compromised upon terms not more favorable to the structedness, he gave expression to such national loyalty and deed feelaggregation of individuals, the same rule should apply in the adjustment | rant the opinion that the stern school of her indebtedness. While supporting with the "Worth bill" in these provisions, the Observer agrees with Senator Norwood in the propo-

sitions that it would be "a fatal error to allow bondholders to receive separately new bonds in exchange," and that the people are "unable at present

to pay any part of the public debt." The amendment offered by the Senator from Guilford removes in part the objection of our contemporary, but it still holds to the opinion that it is better to levy no tax now to meet the interest on our debt, even if

compromised as proposed. The amendment of the Senator from Guilford was timely and wise. By its provisions interest is to be paid upon such bonds only as have been exchanged prior to the first day of April in each year. It is not probable that all the bonds sought to be compromised will be exchanged at once, and the practical result will be to reduce the amount of interest paid in the first few years after the beginning of the exchange. The increase of taxation will be small at first and grow only with the increase in the tax-paying ability of the people.

THE statement made by Senator MERRIMON in the colloquy between himself and Mr. EDMUNDS during the debate on Wednesday, relative to the treatment of Northern "people" who come South to settle, were in each and every particular true. The life of any decent, respectable man who comes to the South seeking a home and settlement, is as safe as that of the most respectable of our own citizens. There is no hostility felt or manifested towards any man who comes here with an honest purpose of seeking a livelihood by toil or the investment of his capital. The contrary is not the truth. Northern men, or men from any quarter of the globe coming with such intentions, are welcome. We want labor; we want capital, and every inducement possible to our circumstances, is offered to induce their coming. Many such as those spoken of have come, and we have yet to learn of an incivility, indignity or outrage done them. They are members of our society, and are entitled to and receive the fullest protection of the law, and this too, without regard to the politi-

cal faith they hold. There is a class, we frankly admit, that meet no welcome when they come. These are the men who come South for political purposes only; who know nothing of the sentiments or necessities of our people and care nothing for them; men who proclaim that politics are a trade, act upon Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, New Jersey, New York, Ohio, Pennto the prejudices of our colored that solution of political ethics, population, and use it, when secured, to plunder our people of their earnings and outrage their feelings. These men are unwelcome. We want nothing to do with them. They add nothing to our society and contribute in no way to the welfare of our commonwealth. They have wrought harm, and harm only, wherever they have been. They have burdened our States with debt without equivalent benefit, have destroyed their credit, and, so far as possible, the reputation of our people as well. Let them remain at home. We neither need nor want them.

> The Inflationists in the U. S. Senate-A Handsome Compliment to a Southern Man.

The proceedings in the U. S. Senate on Tuesday was interesting by reason of their suggestiveness. The advocates for inflation from the west were warmly met by the South, in the championship of Gen. Gordon, of Georgia, who, with native eloquence, appealed for legislative aid in behalf of agricultural interest.

The correspondent of the New York Herald thus graphically describes the scene, and pays a most GORDON:

handsome compliment to General "As the discussion of this financial uestion has touched no party lines, of course those in favor of inflation as well as their opponents, each anxious to have a majority, were casting about for such casual reserves as each might be able to bring to their own standard, and yesterday the west, with fearless shout, hanging its banners on the outer walls, set forth unrestrained the congenial elements, and as the South flocked under the leadership of Gordon the cry was, "Still they come!" in favor of inflation. The hard moneyed men looked to their laurels, but the influence of Morton was at work to check them; and now, while appeared heretofore that the Senate was for the specie resumption or contraction policy, it may now be safely said that the honors are equally divided and that the views of the House will finally prevail in favor of issuing more currency. At all events to-day the climax was reached, and, departing from the cautious generalship of Morton, the contending forces from the West have clearly drawn their lines, abandoned their cover and ambush and stand out boldly and defiantly in battle's magnificently stern array. It was refreshing to be hold Gordon, of Georgia, to-day, when he arose on the financial question. Gifted with native eloquence and a confidence in the mastery of his subject, eschewing manuscript, he gallantly grappled difficulties of his theme. Gordon, who was late Major General in the Confederate army, and present at the surrender of Appomatox, is a fine, soldierly appearing man, of erect mein and bristling with intelligence. He spoke scholarly and argumentatively, and at times reached somewhat the ideal of the grand advocate of his stricken and impoverished section. While some doubts had arisen of his reconing for the honor and dignity of the whole country as would war-

in which he had served during the rebellion brought him out only the

purer for it, like refined gold. He tempered the discussion with such

beautiful sentiment that one might

have said it was not a case of "hard eash," but sympathetic fealty. In the course of Gordon's arguments which was very good and masterly in figurative allusions, he drew a painful yet practical view of the present condition of the South. It had become unprofitable to plant cotton, and during the coming year not more than one-third of a crop would be planted. The South wa suffering for banking facilities and currency. He ably reviewed the case as presented by those who pre-ceded him, and said the panic was produced by the rigidity, non-elasticity and insufficiency of the currency, the system of which had made us a nation of speculators and gamblers. He endorsed the views of Logan and Morton, showing what the ill effects of a return to specie payment would be and what the benefits of issuing more currency, which would largely flow to the South and relieve it from the heavy interest, amounting to twenty-five per cent. which it has to pay to borrow money. He scouted the idea of specie being a preventive against panics, and instanced the cases of England and France in the past. He referred to what England had done through inflation in the cultivation of cotton in her Eastern colonies. He closed with a fine peroration, saying that it was time the agricultural interests of the South should receive special consideration in the legislation of the country. Concentrated capital was hammering at the doors of both wings of the Capitol for a hard money system; but he, speaking for the South, was for more money with an elasticity, convertible and incontrovertible, and hoped the day would soon come when we should issue such a currency, found ed on the credit of the whole country. In conclusion he said that the day the government issues such a currency in dollars, not promises to pay, that day we would have another Independence Day in enjoying an independence from our own and foreign speculators in gold. The effort was a very fine one on the whole, and significant in the extreme as showing overtly that the South joins hands with the West and that the Granger influence is quietly but steadily asserting its strength and may be said to hold the balance of power.

Petersburg, Va., December 17th, 1873. To the Farmers and Guano Dealers of North Carolina and Virginia:

Gentlemen: To the mary of you with whom I am personally acquainted, I would say, that of good results from GUANAHANI GUANO, I have not the shadow of a doubt. Containing, as it does, in such large amounts, the essentials for plant food, success from its application would seem certain. It being of animal origin, you will see at once that its ingredients must be all scluble in the soil. Its nitrogen, from nitric acid, is the most available form known to chemistry; the other part, from undecomposed animal matter, is preferable to the volatile salts in Peruvian Guano. I ask of each of you the kindness of a thorough examination of the accompanying analyses by two of the great chemists of the country. With respect, yours truly,

WM. R. GRIFFITH, General Agent.

GUARANTEED ANALYSIS. Ammonia, from both Nitrogen and Nitric Acid.... 2 to 5 per cent. 25 to 50 per cent. LETTER FROM PROF. WM. C. KERR, STATE GEOLOGIST OF NORTH CAROLINA: Raleigh, N. C., January 7th, 1874. Wm. R. Griffith, Esq., General Agent Guanahani Guano Company, Peters-

THE COMPANY GUARANTEES THAT EVERY CARGO WILL BE

ANALYZED BEFORE IT IS OFFERED FOR SALE.

Dear Sir: Dr. F. A. Genth, whose Analysis of the Guanahani Guano you have shown me is Chemical Minerologist to the Geological Survey, and has no superior as a chemist. I have no hesitation in endorsing any analysis from his laboratory. And I think the analysis justifies his statement that the substance examined by him is a VALUABLE MANURE. From his report, and that of Prof. Wilson, it is evidently a TRUE GUANO, both in origin and composition, and its action on crops may be expected to be the same in kind and in degree proportioned to its relative per centage of the valuable ingredients—Phosphoric Acid, Ammonia and Potash, that of the first being unusually high.

Yours truly, W. C. KERR, State Geologist.

The following analyses of different cargoes and samples by two of the leading chemists of the country, are given for the guidance of the public: LETTER OF PROF. P. B. WILSON, LATE ASSISTANT OF BARON J. VON LIEBIG. CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

CHEMICAL LABORATORY OF PROF. P. B. WILSON, No. 30 Second Street,

Baltimore, December 1st, 1873.

MAJ. N. M. TANNOR, President Guanahani Guano Company, Petersburg, Va.:

Dear Sir: I have drawn samples of the Guano, as it has arrived in cargo lots, and find it exceedingly uniform in the amount of Phosphoric Acid it contains, namely, from 15 to 19 per cent. This is combined with Lime, and is of animal origin, and readily assimilable by plants. It contains potential ammonia and nitric acid, having a combined Nitrogen value equal to from 2 to 3 per cent. of ammonia, with the alkalies Potash and Soda, and valuable proportions of Sulphate of Lime. The whole forming a very desirable combination for all crops, and when applied to land, the crop receiving proper tiliage, must, in my opinion, give as good results as any guano offered to the farmer.

Being of animal origin, the organtic matter has undergone partial decomposition, and it necessarily contains a valuable amount of Humus, which makes its fertilizing power much greater than fertilizers which are compounded large, of Peruvian Guano, which, beyond its ammonia and small phosphatic value, has little or no power in absorbing from the atmosphere and retaining in the soil the movable elements absorbed by moisture and brought down by the rains, as the guano you are now placing upon the market. All of the components of this Guano are very soluble in the soil, and possess such physical properties as to render it at all times and ut der all circumstances as in mediately available plant food.

The late samples you sent me for analysis, from the deposit which you inform me you intend to ship from, show a decrease in the phosphatic value, but a large increase in its nitrogen compounds. I think, however, from previous observations of cargoes, that you may reasonably expect, that cargoes taken from where these samples were drawn, will materially improveed in the saline compounds, (phosphates alkalies and magnesia.

WEST PHILADELPHIA, 19th, 1873.

Maj. N. M. Taannor, Petersburg, Va.,

DEAR SIR: In compliance with your request, I have analy zed sample of "Guanahani Guano," and have made additional examination of an average sample from a lot of 800 tons, the result of which, I beg to embrace in the following. The Guano is a brownish powder, with lumps of combinations of lime with Carbonic. Phosphoric and Nitric acids. It contains a considerable quantity of water (about 20 per cent.), and when dried is a paler brown powder. The Guano is evidently of animal origin, and the minute bones, which were discovered in the same, indicate that it is the result of the decay of bats, mice, &c. The quantity of organic matter, which is still present, is about 12 per cent., and this yields about 2½ per cent. of ammonia. A portion of the nitrogen is present, as nitric acid, of which about 3 per cent. was found. All the nitrogen present would be equivalent to about 3½ per cent. of ammonia. The phosphoric acid in the Guano, about 12½ per cent., equal to 27 3 per cent. of bone phosphate. A considerable quantity of the phosphoric acid, however, is present, as so-called neutral phosphate of lime, which, being slightly solt ble in water, renders the Guano as quick in its action, as a corresponding quantity of superphosphate would do. The small per centage of potsh, which was found in the analysis, adds to its value.

From all the experiments which I have made of the Guanahani Guano, no doubt can exist that it is a valuable manure.

Yours truly,

WM. SMITH. Bethel Academy, Fauquier County, Va., July 24th, 1873. Mr. E. A. DUNLAP.

Dear Sir: I used your Guano on my wheat last fall, and I am highly pleased with it. Think it is as good as the high priced Guanos. I have a good paying crop of wheat, and the best stand of grass I ever had, and this is the opinion of those who have seen both, notwithstanding the unfavorable winter and early spring. I shall use it again this fall. Yours,

I consider it better for wheat than any other Guano that has been used in this county

M. C. BLACKWELL. Respectfully yours, Baltimore, December, 1873. Mr. E. A. DUNLAP,
Dear Sir: The Guano purchased from , ou. was used upon coin by the side of one of
the best ammoniated soluble phosphates in the market. The quality of the land was
the same as was the quantity of guano and phosphate used. The corn where the Guano
was used appeared to start sooner, and in the fall was fully ten inches higher and ripened earlier than where the Phosphate was used.

Very respectfully, &c.,
Late firm of Neale, Harris & Co, Commission Merchants.

Spring of 1873.
We, the undersigned, have sold your Guano for two seasons. Those that have purchased are buying again, and are pleased with the results.
L. KELLUM & CO., 119 Hillen street, Baltimore.

Cheston, Near Queenstown, Md., August 13th, 1873.

E. T. Wroth, Esq., Baltimore, Md.,

Dear Sir: I have your favor of 4th inst., making inquiries as to the results from application of the Guano which you sent me last fall. I applied it at the rate of 170 pounds per acre—the same quantity as of the other fertilizers I was then using. The wheat throughout the field bore much the same general appearance, with perhaps something in favor of your Guano. The grain of my crop on that field was generally of fine quality, and I cannot say that I observed any perceptible difference in its appearance.

The result in quantity, (the most important point,) I regret not to be able to give you. Threshing my crop by steam power, my attention was occupied at many points at the same time, and on one of these occasions this particular parcel of wheat was threshed before I was aware of it, and without any note of its comparative yield. I therefore cannot pronounce positively in its favor, over others; but, from its general appearance, I judge it quite equal to other standard fertilizers of established reputation.

Very respectfully yours,

WM. HENRY DECOURCY.

Baltimore, November 17th, 1873.

E. A. DUNLAP, Esq..

The Guano I had of you last Spring, I used on eorn. It produced a first rate crop. I used about 200 lbs. per acre. Of E. D. Hoopes & Co., 228, 228 & 230, Penn. Averue, Baltimore, Md. Dealers in Grain Country Produce, Guanos, &c.

Somerset County, Md., Westover, August 8th, 1873. E. T. Wroth, Esq., Baltimore, Md.,

Dear Sir: Yours of the 4th received and contents noticed. You must excuse me for not reporting to you sooner the result of the experiment with your Guano. I seeded it by the side of ** ** * 's Raw Bone Super-Phosphate, at the rate of 150 ibs. to the acre, of each. Whilst growing, I, nor any to whom I showed it, could not perceive the least difference. The yield was equally good—about 25 bushels to the acre. I consider it equally as good as ** ** 's, in every respect. Please inform me the price, as I intend using some on wheat this fall.

Mount Airy, Carroll County, Md., November 18th, 1873.

Wm. R. Griffith, Esq., General Agent,
In reply to yours of the 12th, will say, the farmers can say but little, as yet, in regard to Guanahani Guano. But Maj. A. G. Davis, who used one bag, by the side of several other fertilizers, says, so far, the Guanahani looks better than any of the others. All parties say, so far, they can see no difference in their grain wherever it is up sufficient to judge. By the spring, I can give you a more satisfactory report. Hoping to have the pleasure of a visit from you, soon,

Very respectfully yours,

I am, truly yours, W. H. B. DORSEY. P. S.-I have commenced making a stir for the Spring trade. San Marino, Dinwiddie Co., Va., November 15th, 1873.

San Marino, Dinwiddle Co., Va., November 15th, 1873.

W. R. Griffith, Esq.,

Dear Sir: Yours of the 12th inst., was received on yesterday, and, in compliance with your request, I hasten to reply. I purchased half ton of Guanahani Guano, from Messrs. Rowlett & Tannor, 1st of October, 1873, to use upon my wheat crop, as an experiment. I applied it 200 lbs. per acre. The wheat was seeded from the 10th to the 17th of October. I was very careful in the application, leaving two strips of land through the field; one of an acre, the other two acres. The one acre strip was manured with ** * * * Phosphate. The two acrestrip was in tobacco, heavily manured with stable manure and * * * * * Tobacco Fertilizer. Is so added a strip of very poor land (stubble) on one end, three-fifths of an acre. Upon this I applied 100 lbs. of Guanahani, and also moistened the wheat and rolled it in the Guano. (I mean the wheat sown upon this three-fifths strip.) The season has been favorable, and the young wheat is looking very well; and that upon the narrow strip of poor land, equally as good as upon the heavily manured tobacco land. I am satisfied that the Guano is acting upon this strip of wheat, as the land was very poor. I do not think that it would be well for me to make a positive assertion just yet, bu will carefully note the result and let you hear from me again. Yours respectfully.

Messrs. Rowlett & Tannob.

Dear Sirs: In reply to your inquiries in regard to the Gusnahani Guano, which I purchased last summer, I can only say that I applied it on my wheat crop, sowing it broadcast and plowed it in with the wheat. So far, I am vary much pleased with the Guano. Where I used it, the wheat looks better than any I have seen, and my neighbors who have seen it, consider it so. I applied it the first of October, and it shows very plainly over the wheat where there was nothing used.

Very respectfully,

JOHN J. MITCHELL. Kingston, Dinwiddie Co., Va., November 26th, 1873.

[Note.-Mr. Mitchell has since ordered 10 tons for his Spring crops Millstone Landing, Md., December 1st, 1873.

Mr. E. A. DUNLAP,
Dear Sir: I am just in receipt of your letter, but regret that I did not receive it sooner.
I used your Guano, side by side with * * * * * * Ammoniated Super-Phosphate, and could perceive no difference, only in growth of the straw. The straw from * * * * * * s rather the largest. The grass from it was equally as good, and I do not hesitate in recommending it to farmers as a reliable fer tilizer.

Very respectfully,

ELKANAH WISE. ELKANAH WISE. Dinwiddie County, Va., November 21st, 1873.

Messrs. McIlwaine & Co., Petersburg, Va., Gentlemen: I used the Guanahani Guano, purchased of you, on wheat at the rate of 300 lbs. per acre, on corn land. The wheat is looking well. I think it will prove a good fertilizer.

Respectfully, A. M. ORGAIN. Sussex County, Va., December 12th, 1873.

Messrs. Rowlett & Tannor, Petersburg, Va.,
Dear Sirs: I used on my wheat, sowed about the 1st of October, a half ton of Guanahani Guano, and so far I am very much pleased with its action. Where I used the Guanahani the wheat is looking remarkably well—a great deal better than the wheat Very respectfully. J. N. WINFIELD.

Prince George County, Va., December 16th, 1873.

Messrs. Bishop & Branch,
Sirs: You ask me my opinion of the Guanahani Guano I puechased of you last fall.
I used the guano on my wheat, but owing to the unfavorable fall for the growth of wheat, it would be impossible for any manure to show its strength fully. Fowever, I think the guan oa good fertilizer, from the fact, that the wheat looks as well as it does where a well known fertilizer was used that cost nearly double the money.

Respectfully,
A. G. JORDAN.

Petersburg, Va., December 16th, 1873,
WM. R. GRIFFITH, General Agent of the Guanahani Guano Company,
Dear Sir: In reply to your enquiry about the action of the Guanahani Guano on my
wheat crop, I would say, up to the present time it is looking very well.
Yours truly,
SAMUEL H. JONES,
Prince George County, Va. Broad Run Station, Fauquier County, Va., December 4th, 1873.

Broad Run Station, Fauquier County, Va., December 4th, 1873.

Mr. E. A. DUNLAP,
Dear Sir: I lett one row without your fertilizer, and used it on the next row. I used at the rate of 200 pounds to the acre. I had the corn carefully gathered separate, and found the result as follows: From the Guano row I shelled one bushel and nearly a half gailon; from the row without guano I got a half bushel and not quite a quart; making fully double where I used guano. The growth of stalk was net proportionately heavy—the strength seemed to go to the grain. I think it an excellent Spring fertilizer. The land I tried it on was quite thin. Yours, &c., A. D. SMITH.

Poplar Mount, Greensville County, Va., December 17th, 1873.

Mes-rs. Rowlett & Tanner,
Gentlemen: Yours of the 15th is received. You ask "How I like the Guanahani Guano, so far?" Guano, so far?"

In reply I have to say that I used five bags last fall, experimentally. I applied four bags to wheat at the rate of 200 pounds to the acre. I used the same quantity (200 pounds) on winter oats. The wheat was not sown until about the 20th of October, but has already a healthy vigorous blade. The present indications lead me to believe that it is decidedly superior to any of the sup-r-phosphates.

The winter oats we e sown the last of September. In the application to this crop, I have, in consequence of earlier seeding, a better opportunity of observing the effect of the Guanahani Guano. Here it is most marked and decided. It reminds me of former days, when, for a moderate outlay of money, the farmer purchased the pure Chincha Island, (unadulterated) Peruvian Guano.

I wish to try some of this Guano next year on cotton and tobacce.

I am, very truly yours,

GEORGE W. FIELD.

GEORGE W. FIELT. The Company recommend an application of from 200 to 250 pounds per acre, but not over the larger amount.

As it will be impossible to bring but few thousand tons to this country in time for the spring irade, orders must be sent at an early day to secure it.
